# Student Data Backpack

# STUDENT DATA BACKPACK

## Purpose

The purpose of the IDOE Student Data Backpack (SDB) project is to provide a single data structure and reporting interface location for all data related to the academic record of a student within the IDOE school system.

Made by FREE-VECTORS.NET

# STUDENT DATA BACKPACK

## Purpose cont'd

- This role-based reporting interface will allow authorized individuals to access state-level student records for a given student.
- Access to Student Data Back via LINK portal > EDData > Student Data Back
- 'Persona' access to Student Data Backpack to be managed via Staff Association Classifications reported to Data Exchange (DEX)
  - Student Data will be provided from Current School year and Historical School year reporting

# STUDENT DATA BACKPACK ACCESS PERSONAS

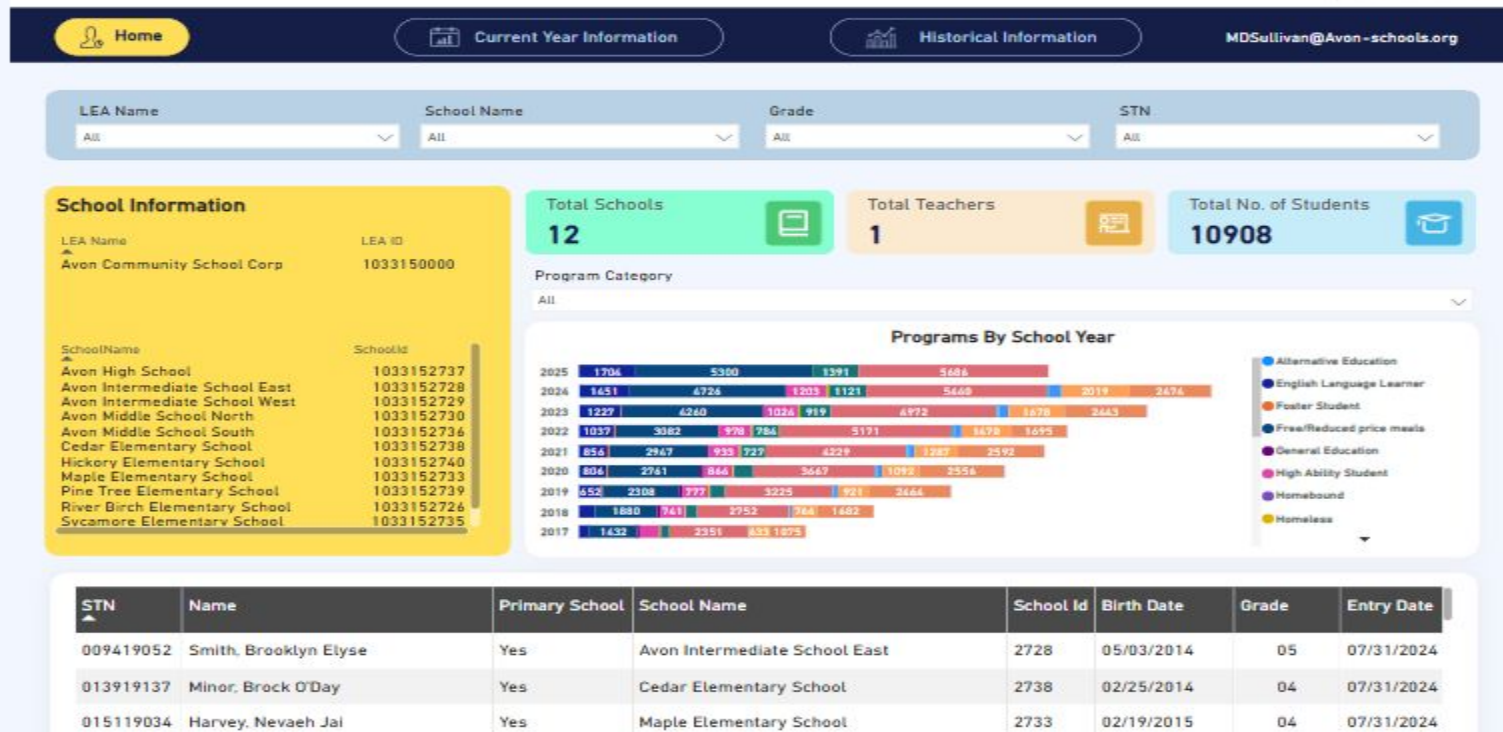

Persona	Student Data Access Level
Teacher	All students currently enrolled in a Staff Section (teacher's class).
School Counselor	All students currently assigned to a Counselor's Cohort (Grouping).
School Administrator	All Students currently enrolled at an Administrator's school.
Principal	All students currently enrolled at a Principal's school.

## STUDENT DATA BACKPACK ACCESS PERSONA

Persona	Student Data Access Level
Superintendent (or LEA Administrator)	All students currently enrolled at a school within the Superintendent's (or LEA Administrator's) corporation.
Network User	All students currently enrolled in an educational organization within their network.
Data Administrator	All students currently enrolled at any school within the corporation.

# Helpful Reminders

# PURPOSE

Membership is used  
to calculate the  
Basic Grant portion  
of Tuition Support

Breakdown of FY 2024 Tuition Support

# COUNT DATES

- **A count of students enrolled and expected to be in attendance on count day.**
  - Enrolled means the student is:
    - Registered with a school corporation or charter school to attend educational programs offered by or through the school corporation or charter school; AND
    - Attending these educational programs or receiving educational services
  - Attending means the student is:
    - Present physically or virtually with the expectation of continued services in the education programs for which the student is registered

# COUNT DATE VIRTUAL VS NON-VIRTUAL

- **Spring attendance**
  - IDOE reviews the attendance for each student from the first day after the October count date (October 2) until the spring count date, February 3
- **IDOE takes into consideration whether a student transferred to the school corporation during the date range above**

# TYPE 6 DUAL ENROLLED

- **Which Students are Dual Enrolled?**
  - A student is enrolled and attending your school corporation and a non-public school(including a homeschool):
    - Student must be receiving less than 50% instruction from the school corporation or charter school.
    - Other school **cannot** be another public school
- **Reporting Considerations**
  - Must input Instructional days and minutes
  - If 2 public schools attempt to submit the student for membership, it will create a conflict

# MEMBERSHIP

- **DO NOT REPORT:**

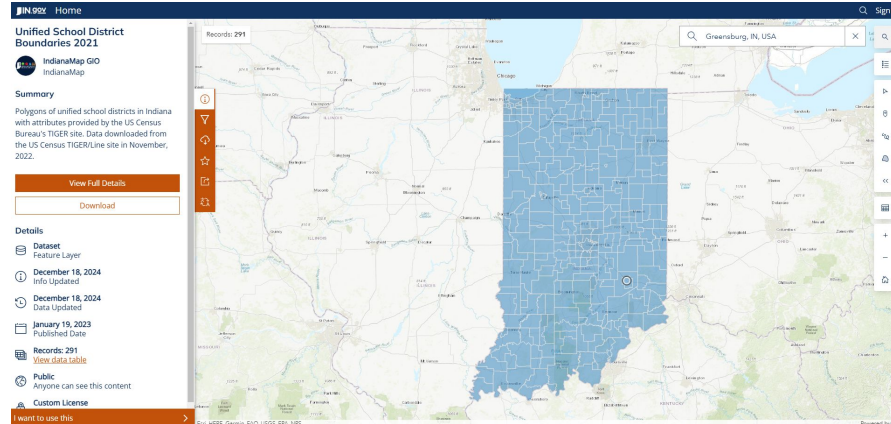

- Out of State students
- Student only enrolled for special education or title programs
- Students only enrolled for special education evaluation purposes
- Students enrolled in the Indiana School for the Visually Impaired or the Indiana School for the Deaf
- Mid-Year graduates (February Count)
- Foreign exchange student with an F-1 Visa
- Expelled general education students

# CONFLICTS

- **Schools should review process for recording enrollments and exiting student to ensure accuracy**
- **Schools should review conflict messages early and often**
- **Communication with the school(s) with which you are in conflict is essential**
- **Unresolved conflicts may petition the State Board of Education and provide evidence**

# SE CHANGES FOR 2024-25

- **New Program Name**

- Identified Unserved Nonpublic/Homeschool Only

- Used when child is:

- Eligible, and
- Enrolled in a nonpublic school within the public school's boundaries or homeschooled living in the district, and
- Not receiving services from any provider (public school, nonpublic school, ESA managed by parent)

- Required for accurate calculation of federal proportionate share

- Small number of children will be in this scenario

# NEW PROGRAM NAME

## Identified Unserved NonPublic/Homeschool Only

- Not used when child is
  - Enrolled in a public school, even when the child is not receiving services
  - in PK unless the child is enrolled in a private preschool that is part of a nonpublic elementary school

# EV CHANGES FOR 2024-25

- Circumstances Code Eliminated

- ~~1 - 20 day timeline due to implementation of RTI.~~

- Elimiated from Article 7 (Special Education State Rules) in April 2024

# EV REMINDER

- Students who are enrolled in nonpublic schools or homeschool should be marked as such with Setting Descriptor for **Evaluation (EV)** reporting as well as **Special Education (SE)** reporting
  - 3 = Homeschool
  - 10 = Non-Public School (KG-13)
- IDEA-required record keeping

# NEW TR CLARIFICATION

18	Received an Alternate Diploma	
99	No longer qualifies	Used if a program (placement) changes, <b>OR</b> , for students who were found ineligible and have never received Special Education services. Also appropriate when a student withdraws from the corporation prior to the completion of the Special Education Evaluation or transfers within district.
<p>NOTE: no longer qualifies for the SE program/placement, the exceptionalities/disabilities, or the education organization (enrollment) changes. No longer qualifies for service(s) the student was receiving or where they were receiving the service(s).</p> <p>Used when program "Identified Unserved NonPublic/Homeschool Only" is no longer associated to the student at the reporting school.</p> <p>Note: May be used when students are no longer receiving services from a non-public school identified with "Choice Voucher" program. While non-public schools do not report termination information to the state reason exited 99 may be utilized to keep program records accurate internally.</p> <p>Note: Changes may mean a change in the Special Education program, a change in schools under the same district, and/or a change in the Special Education Exceptionalities/Disabilities.</p> <p>Note: For students whose placement is changing, create a new program record with updated information.</p>

# NEW IEP (AND ILP) SYSTEM

- **Changeover from Indiana IEP to PowerSchool Special Programs (name TBD)**
  - Migration activities have been ongoing on since PowerSchool contract originated in late 2023
  - Current system will go dark towards the end of June 2025
  - New system should come online about 3 weeks later
  - Stay tuned to Dr. Jenner's weekly announcement and Moodle for details

## **PSSP AND DEX REPORTING**

- **For public schools, student level core special education reports (SE/EV/TR) will originate in PSSP rather than each individual SIS**
- **Students on CSEP (Choice Special Education Plan) will continue to report through SIS as pre**
- **Data will be certified through DEX Validation Portal for all schools (no change)**

## Current state:

## Future state:

# PSSP AND DEX REPORTING

- **SE Program Record will remain the same, but....**
- **Significant change**
  - Data will solely originate (and be changed) within PowerSchool Special Programs
  - Data staff should continuously monitor/audit data in ODS
  - Local procedures for correcting data should be developed to ensure accuracy at certification time
  - IDOE and PowerSchool will be providing trainings this spring and summer to facilitate use of new system

# CONSEQUENCES FOR SIS

- **SIS (at public schools) will need to stop sending SE Program Records to ODS this summer**
  - Many schools will likely wish to continue using SIS SE Program Record for various internal purposes
  - Plans are under way for SIS to ingest data from ODS (and consequently from PSSP)

# Vendors Supporting State Reporters

# When/Why might you need extra support?

- Staff is too small or stretched too thin and need extra support or want to outsource most of the work
- Covering for maternity leaves or other medical leaves
- Unexpected job openings
- Need training for new staff

If you know of other vendors providing support to schools, recent retirees who might be willing to fill in for a short period of time, or if you are in need of support and the following vendors aren't able to help, please let Lindsey know.

# AGENDA

1. Introduction: Define Data Governance
2. The Chaos: Data Without Governance
3. The Secret Sauce: Key Principles of Data Governance
4. Building the Framework: Turning Chaos to Clarity
5. Staying on Track: Maintaining Governance for the Long Haul
6. Real-World Example

# INTRODUCTION

## *What is Data Governance?*

Data governance is both an organizational process and a structure; it establishes responsibility for data, organizing program area staff to collaboratively and continuously improve data quality through the systematic creation and enforcement of policies, roles, responsibilities, and procedures.

# THE CHAOS:

## *DATA WITHOUT GOVERNANCE*

### The Cost of “Oops”

- Loss of Funding
- Non-compliance
- Potential data breach

### Data Gone Wild

- Inconsistent and unreliable data
- Missed Opportunities
- Bad decisions

# THE SECRET SAUCE:

## KEY PRINCIPLES OF DATA GOVERNANCE

Data Governance is the critical component that ensures the continuous functioning of the framework.

# BUILDING THE FRAMEWORK:

## *TURNING CHAOS TO CLARITY*

### People

- Gather all stakeholders
- Evaluate roles/responsibilities
- Identify Data owners
- Adjust roles/responsibilities

Provide training on new processes  
to all stakeholders

### Process

- Define data set
- Evaluate current process/district policy
- Identify pain points in current process
- Set priorities from identified pain points
- Establish scope of new process

### Technology

- Evaluate current technology/software
- Evaluate security/access to data
- RFP new technology/software

# STAYING ON TRACK:

## *MAINTAINING GOVERNANCE FOR THE LONG HAUL*

- Ownership** ➔ Who is responsible for data entry, data validation, and data management?
- Accessibility** ➔ Who needs to edit, view, and/or manage the data?
- Security** ➔ What security roles are in place to edit, view, and/or manage the data?
- Quality** ➔ What processes ensure data accuracy?
- Knowledge** ➔ How do we use this data to make data-driven decisions?

# REAL-WORLD EXAMPLE

Data Request Process		
Priority Area	Implementation	Checkpoint 1
1. People	Admin	All staff
2. Process	Google Form with targeted questions	Review form questions
3. Technology	No additional technology needed	
4. Ownership	Kami, Chantell	
5. Accessibility	Only Admin can have access to the request form.	Any staff
6. Security	Evaluate request against current Data Governance Policy.	
7. Quality	Review data for quality and accuracy.	
8. Knowledge	Provide the requested data, along with an explanation of its contents and any supporting documentation. Specify who pulled the data, as well as the date and source.
